Actual Size  
"Bet its smaller  
than yours!"

*"Catheter valves are an alternative to leg bags, ask your continence specialist for an assessment - it could change your life!"*

## The next generation of Catheter Valve

- ✓ The most discrete catheter valve available
- ✓ Will not mark the skin as some products do!
- ✓ Accidental opening highly unlikely
- ✓ Saves NHS £££'s as least expensive on market
- ✓ Easy & secure to connect to catheter - no big tap in the way!
- ✓ Completely transparent to allow easy inspection of urine for debris or encrustation (apart from blue contrasting tap to aid partially sighted)
- ✓ Attaches to all UK day and night drainage bags

Ask your doctor or nurse to change your prescription to: **Manfred Sauer Smartflow catheter valve CVS**

Due to its reduced dimensions it may not be suitable if you have impaired dexterity.

\*We cannot send a sample to you unless you have already been assessed for a valve by a Healthcare professional as incorrect use can be harmful to your health.
